*Biometrics in Support of DoD
Identity Management*

Biometrics in Support of DoD Identity Management

- Mr. Tony Demestihias, BTF Policy Branch Chief.
- Representative from the Identity Protection and Management Senior Coordinating Group (IPMSCG) to provide brief on the Identity Management (IdM) Strategic Plan. A representative from each PKI/CAC, Biometrics, and PvM will discuss how they are supporting the IdM Strategic Plan.
- Biometrics does and will continue to play an important role in the DoD's efforts at achieving IdM. As the role of IdM is further explored within the DoD, the relationship between biometrics and Identity Management will need to be more clearly defined and gaps will have to be addressed and solved. Is the policy framework in place to support a biometrics capability within DoD's Identity Management?

"Roll up your sleeves."

2010 DoD
BIOMETRICS
COLLABORA
TION FORUM

Session Objectives

- Discuss the role of a biometrics capability within the DoD's IdM implementation and what policies exist and are needed to fulfill this role.
- The session will begin with a representative from the IPMSCG providing an overview of DoD IdM Strategic Plan and its subsequent implementation.
- Following the opening presentation, a representative of the PKI/CAC office, the BTF, and the Privilege Management effort will discuss their organization's current and future expectation of the utilization of biometrics in support of achieving the DoD's IdM Strategic Plan's objectives.
- The session will open up a discussion to examine the three organizations' respective use of biometrics, and where the organizations can work together and examine what actions must be taken to address gaps to ensure biometrics is consistently captured in the DoD's IdM Strategic Plan.

Findings and Insights

- *Summarize key discussion points from the session*

Next Steps and Timeline

- *Highlight any progress (or breakthroughs) made during session.*
- *Outline the “Way Ahead” with a timeline for completion.*
